Bulk & Project Shipment Agents

In the past 73 years, we have handled a huge kind of Machinery and Heavy Lifts in all over India and have gained a very good reputation in the market. We have been handling oilfield equipment in Chennai, Vizag and have established a broad oil industry customer's base since then.

Not only do our teams have close ties with many of the Heavy Lift ship-owners situated in India, but we also have long-term working relationships with our associated subcontractors in India who are specialized in domestic heavy lifts in the forms of overland trucking, river transportation, coastal feeding, equipment positioning and installation, etc.

In short, we are professionals both in oversized and overweight equipment and we are one among very few in India as an onshore contractor in heavy lifts exclusively. We are the leading company for services providers in the Port of Chennai, in addition we are exclusive stevedores and shore logistics providers to several leading Iron scrap Importers and Mill owners complete catering to south Indian markets.
